The green chamber is a great voice and advocate for local businesses when the environment in our city leans more toward courting chain stores. They are an articulate, concise, and eloquent advocate for local small businesses and their impact on the community." **Bernie Digman, owner of Milagro Coffee y Espresso**

"The Las Cruces Green Chamber of Commerce has helped the MVCH in terms of awareness throughout the community, has definitely supported our initiatives, and also has helped us with instituting some green policies and sustainable practices for our tent city and for people who are in their own homes now who used to be homeless." **Nicole Martinez, Executive Director, Mesilla Valley Community of Hope**

Think Local First

Our Think Local First campaign strengthens New Mexico's communities and economies by urging consumers to Think Local First before deciding where to shop, where to eat or look for services.

The Think Local First educational campaign and support activities create a mindset among consumers that builds a healthy community. We do this by keeping money in the local economy and flowing through the local businesses who have dedicated themselves to our community.

Our members believe in the Triple Bottom Line: People, Planet, and Profit. They support investing in the community; protecting our air, land and water; and creating long-term economic stability.

Current membership includes over 250 local businesses and non-profit organizations.

We are where values and profits meet.
